Document No: 06-01001
Document Title: Determining PJI Port Numbers for Non-IBM Printers
Category: Hints, Tips & FAQ
Functional Area: Printing
OS/400 Release:

Document Description:

In general, port numbers 2501 and 9100 are used for IBM printers. However, a full list of recommended ports can be found on the IBM Knowledgebase, under article 12454128, ["Recommended PJI Port Number Values for *LAN 3812 PJI Device Descriptions."](#)
